Subject : Complaint against Noise Polluting welding factories.

Respected Sir,

On behalf of the residents, I am writing to bring to your attention a significant issue in our residential area 1st main, Narasimha Swamy Layout, Laggere, Bangalore-560 058 regarding a Noise polluting activity that is causing disturbances and inconveniences to the residents.

Noise polluting activities carried out are cutting metals like MS using cutting machines, grinding the welded metals using grinding machines, welding, painting the materials. Multiple people run these machines at same time throughout the day, which is causing too much noise and causing below issues:

1. Elders, housewives and anyone staying at home are not able to tolerate this sound and not able to sleep.
2. Kids are not able to study at home.
3. Causing headaches and migration issues and other mental issues to the people.
4. Welding light is causing eye issue to residents. Smoke coming from welding is causing air pollution.
5. Metal cutting spark is sprayed to bike riders driving in the road, bikes can catch fire.
6. Many times, work is done even at early morning 6:30 am and in the night till 8:30 or 09:00 pm even during festival days.

We have informed to owner running industries and landlord, both are not cooperating and not ready to resolve the issue and help neighboring people. We have also raised complaints in <https://cggperts.gov.in> with registration number MOEAF/E/2023/0002719, and in <https://opra.karnataka.gov.in> with grievance id 110143

I kindly request that the authorities investigate this matter thoroughly and take appropriate action to vacate the noise polluting activity from our residential area.

Sincerely,

Chandra S C : 95387 47777
