Objective: Seeking an opportunity as a **java/Scala/Spark/Big Data** developer for better learning opportunity where I can put my maximum effort for the sake of my employer's growth along with mine.

PROFESSIONAL SUMMARY

➢ Currently working with **Widas concepts** as a **Big Data Engineer** from Aug 2018 - till date.

➢ Having total of **4.2 years of professional software industry experience in development** of e-commerce, Healthcare ,Banking,Transportation,and J2EE applications.

➢ Worked on **java**, **Hadoop**, **Spark**, **Scala** and different other Big data platform.

➢ Have good Exposure in API'S related to java, Scala.

➢ Dedicated, quick learner, solution driven pattern programmer with problem solving abilities Strong team player with excellent working skills in team.

TECHNICAL SKILLS

➢ *Operating Systems:* Linux/Windows /2000/7/8

➢ *Languages and Frameworks:* Java-7/java-8, Scala.

➢ *Technologies:* Hadoop Hive, Spark-Sql, Spark-core, Spark-streaming, good in MySql, Oracle, Cassandra, Pig, Sqoop,Apache Kafka.

➢ *Servers:* Cloudera, JBoss

➢ *Frameworks:* Spring – Mvc (Basics), Hadoop, Spark, Kafka.

➢ **Services**- Rest/Web

➢ *IDE:* Eclipse

➢ *Techniques:* Object Oriented Programming, Algorithms System (OOPS), Functional programming, Data Structure.

WORK EXPERIENCE

➢ Aug2018 **- Till Date** **Widas Concepts India pvt limited, Bangalore**.

➢ Nov2016 - Aug2018 Software Engineer with Cerner Healthcare Solution, Bangalore.

➢ March2015-Nov2016 Programmer Analyst with Cognizant Technology Solutions, Bangalore.

ORGANISATIONAL EXPERIENCE

Designation: BigData Developer

Company:	**Widas Concepts**
Client:	PostBank
Role:	Development.
Projects:	Fraud Detection System/Carbook+

Fraud Detection System: This is a fraud detection system for one of a reputed bank called Postbank in Germany,where we track transaction made on the real time basis and check if there is any fraudulent involved or no.This applies to different mode of transactions and the processing is done with respect to some set of defined rules which contains some scenarios.

Role: Developer
Responsibilities involved:
· Requirement handoffs,Requirement gathering.
· Daily Scrums meets.

Team Size: 4
Technology Used:- Core java,Scala,Cassandra,Web/Rest Service,Kafka,Spark,Storm,Docker

Company:	**Cerner Healthcare Solutions**
Client:	150+ clients (including Hospitals and other Healthcare Organizations.)
Role:	Development.
Projects:	Pop Health, /E-learning tool.

Projects #1   : PopulationHealth
Platforms:- Healthecare/HealtheIntent
Duration: Nov 2016 till date
About Project: This project involves onboarding of new clients, along with the development, Maintenance and enhancements of different healthcare parameters which involve data prediction, and analytics on subject of: -

Registries: -This involves high level parameter related to different diseases which involves mainly identifying, Excluding, Met/Not-Met behavior of persons which are identified as Patients based on parameter decided by the Healthcare organizations. It is a very vast term mainly deals over diseases and related concepts.

Population: -These terms relates different source of data which becomes a pool of huge population. There are different client specific needs which we are using to write.

Identification:-Identification of the right candidate who probably becomes Patients based on different medical symptoms provided by different healthcare institutes.

Alignment: This involves alignment or creating best suitable match of a right Patient to right care management or to a right Doctor/Hospital based on client's specific rules.

Attribution: Similar to the above-mentioned Alignment concepts, this involves attributing best candidates to the best doctor who will be responsible for the Patients health and because of that Doctors performance comes in the picture.

Role: Developer
Responsibilities involved:
· Requirement handoffs
· Client onboarding.
· Running scrums

Team Size: 4
Daily Technologies used: Core Java, Scala, Hadoop Hive, Spark-Sql, Map reduce, Hdfs, Json, (Knowledge of Spark-Streaming),Clojure,Kafka.Docker.

Tools: Jira, Git-Hub,Gitlab, Data inspector, Jolly Roger, Releasenator, Chops, Maven, Jenkins

Company: **Cognizant Technology Solutions**

Client: **Neiman Marcus Group.**

Role: Development.

Projects: Agent Management System, /2click –Checkout /and Site Personalization/Site stability.

Client :   **Neiman Marcus**

Responsibilities:

➢ Responsible for sending customer's behaviors to third party with integration and Bug fixing.
➢ Verification/Validation of System framework module checklist.
➢ Active member of the development team contributed in delivering /Unit testing/and fixing stories.
➢ Involved in brainstorming for new ideas/features for project design.
➢ Exception handling work for making the site more efficient and stable.

Project Details:

Project #1   **:** Agent Management System**.**

Role   **:** Developer

Duration   **:** 3 Weeks

Technologies

Used   **:** **Core** Java, Mvc, JSP, jquery , Eclipse ,and Oracle.

Team Size   **:** 5

About Project : This Agent Management system was aimed at building a web application for insurance like organization, which provides enrollment of insurance company's agents and different parameter and functionality related to their organizational working structure.

Responsibilities Involved:

➢ Designed JSP's as per the requirement.
➢ Implemented Controller classes.
➢ Implemented Commands and their validations.
➢ Designed DB Schema.
➢ Optimized logic design and helped in integration.

Project #2   **:** Site Personalization

Role   **:** Developer

Duration   **:** 7 Months

About Project : The project involved in enriching the user experience with various personalization features based on his preferences.

Responsibilities Involved:

● Analyzing the business functionality of the application and implementing that for enriching the user experience apart from providing enhanced functionalities.

● Coding and implementing the benefit areas and various modules for this application.

● Writing Unit Test Cases for functional testing of various test case scenarios.

● Active participation in regular project status meetings, client calls.

Team Size: 10

Technologies Used: Core Java, Servlet, Jsp, Java-Collections , ATG

Tools: Eclipse, SQL Developer, JIRA, Stash, Splunk, Source Tree

Project #3 : Site Stability

Duration: May 2016 to November10

About Project: This project involves fixing backend problems and providing some logs and additional data at the required places.

Role: Developer

Responsibilities Involved:

- Responsible for analyzing, coding and implementing several modules of this application.
- Participating in client calls and involved in the requirement gathering from the clients.
- Code fixing and maintenance of the application.
- Writing Unit Test Cases for functional testing of various test case scenarios.

Team Size: 10

Technologies Used: Java, ATG,Spring

Tools: Eclipse, Oracle SQL Developer, JIRA, Stash, Source Tree, Splunk, IBM TeaLeaf

Management Skills

- ➢ Familiar with all **corporate etiquettes**.
- ➢ Good understanding of **Branding**, **sells and marketing.**
- ➢ Familiar with "**Total quality Management**" concept and also studied "**operational Research**".

ACADEMICS

- ➢ HS- **Army Public School Beas**, Punjab (Passed in **2008 with 80%**)
- ➢ HSC- **Army Public School Beas**, Punjab (Passed in **2010 with 79%**)
- ➢ B. Tech - ME from **Sharda University** Delhi Ncr (Passed in **2014 with CGPA-7.48**)
    # 9 weeks Vocational Training in SAIL, Bokaro , Jharkhand

ACHIEVEMENTS

- ➢ Inter Army school Hand-Ball, Foot-Ball and Cricket Tournaments at school and college level as captain.
- ➢ Participated in many quizzes and debates with positions.
- ➢ Youngest appointees at school.
- ➢ IMU (Indian Maritime University) CET2010, –AIR 861th rank.
- ➢ 10 time conference gone candidate in SSB.

PERSONAL DETAILS

Name	: Naveen Kumar
Parent's	: Mrs. Manorma Devi And Shreeniwas Singh.
E-mail	: naveen091kumar@gmail.com
D.O.B	: 07-10-1991
Marital Status	: Single
Languages known	: English, Punjabi and Hindi.
Hobbies	: Interacting with new people, Watching Market Updates, Playing Sports.
Address	: Nagawara, Bangalore, Karnataka.
